P

Piggly
User Guide

Budgeting, savings goals, rewards, and celebration cards.

VERSION 2 · UPDATED OCTOBER 23, 2026

What’s new

- Shareable celebration cards for completed goals
- Free and Pro card styles, including a custom message card
- Accounts, Pro plans, plan switching, and cancellation
- Syncing your Piggly information across devices when signed in

Quick start

Piggly opens with sample information so you can explore right away. Replace the samples with your own budget, purchases, goals, and debts whenever you are ready.

Your first five minutes

- Choose Edit budget, enter your monthly spending limit, and save it.
- Add a purchase with a description, amount, and category.
- Open Goals and edit a sample goal or choose + New goal.
- Feed a goal whenever money is set aside for it.
- Check the menu for your level and XP. Every 500 XP raises your level.

Free and Pro

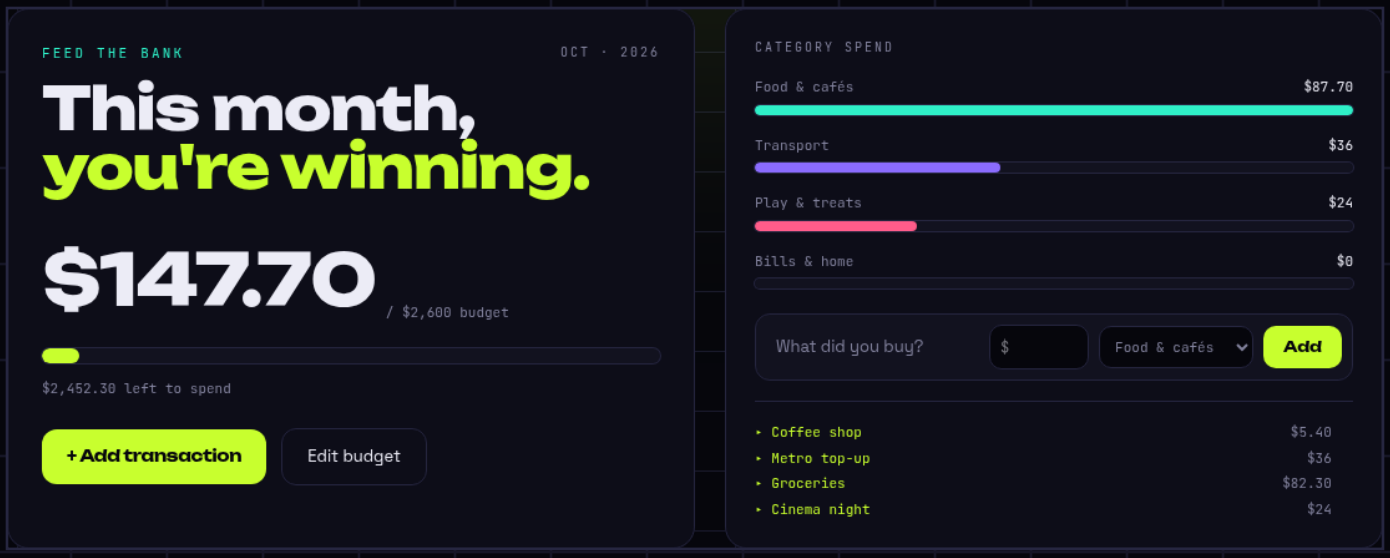

Free: budget dashboard, editable savings goals, XP and levels, and the Classic Neon celebration card.

Piggly Pro: debt pay-down, money tools, the full rewards gallery, and exclusive celebration card styles. Pro costs $4.99 per month or $39 per year.

Piggly is a budgeting and savings aid. It does not connect to bank accounts and does not provide financial advice.

02 · DASHBOARD

Track spending

The dashboard compares this month’s spending with your budget and shows how much remains.

- Edit budget changes your monthly spending limit.
- + Add transaction moves you to the quick-add box.
- Choose Food & cafés, Transport, Play & treats, or Bills & home.
- On a computer, point to a purchase and choose × to delete it.

Logging spending on seven different days unlocks the 7-Day Streak badge. The dashboard does not automatically clear spending at the start of a new month.

Save toward something exciting

Create or change a goal

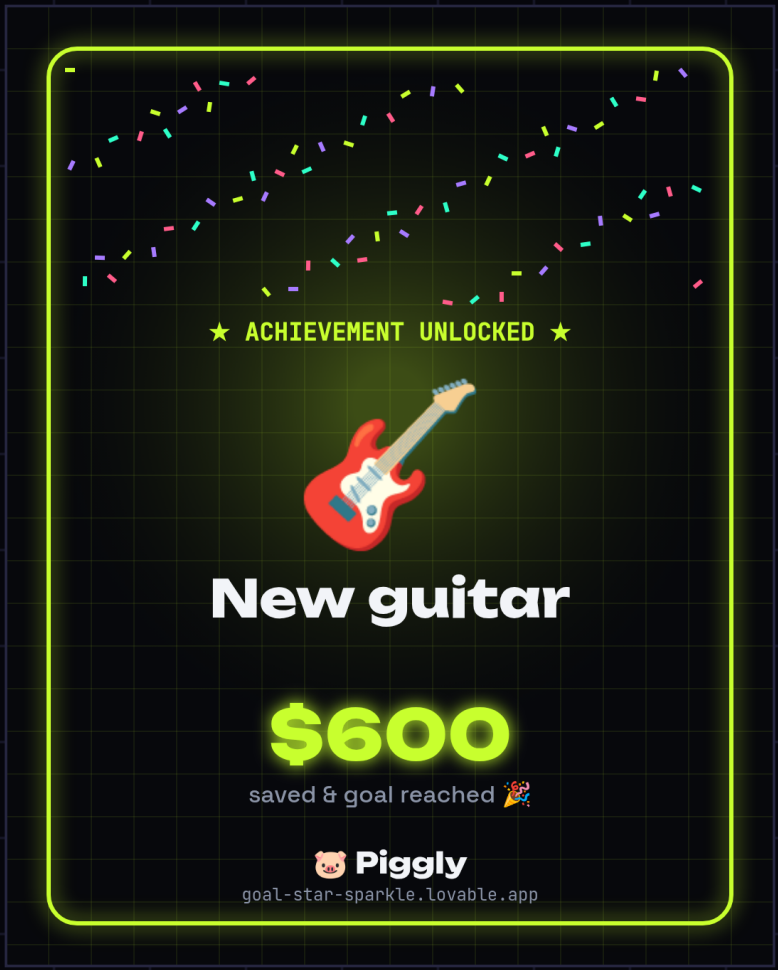

- Choose + New goal, then pick an emoji, name, target amount, and deadline.
- Choose Edit on a goal to change its name, emoji, target, deadline, or color, or to delete it.

Feed a goal

- Enter an amount in the $ feed box and choose Feed. Feeding a goal earns XP.
- A goal cannot be overfilled; Piggly stops at the target amount.
- When a goal reaches 100%, it is marked Complete, confetti appears, and you earn the Goal Crusher badge and 250 XP.

After a goal is complete, a Share win button appears on that goal. The next page explains celebration cards.

Share a completed goal

- Open a goal that reached 100% and choose Share win.
- Pick a card style and check the preview.
- Choose Share / download card.

Phone or tablet: a supported browser opens the share menu. Available saving and sharing choices vary by device. If sharing is unavailable, the PNG downloads; open it in Files or Downloads, then save or share it. Computer: the card downloads as an image file.

Free and Pro designs

Classic Neon · Free

Piggly’s green neon “Achievement Unlocked” card with the goal emoji, name, amount, and confetti.

Golden Trophy · Pro

A gold award-style card with “champion saver” wording.

Synthwave · Pro

A bright pink-and-blue retro arcade design.

Proud Note · Pro

Adds a personal message of up to 48 characters, such as “So proud of you! — Mom & Dad.” Type the message in the box above the preview.

If you are not a Pro member

You can preview Pro designs, but the share button changes to Unlock all card styles with Piggly Pro, which opens the plans. Classic Neon is always free to share.

Tip: before sharing a child’s card, check that it does not show private information you would not want online.

Debts, badges, and tools

Debt pay-down

- Add a debt with a name, total balance, and interest rate. Record payments to update the remaining balance.
- The interest rate is for reference only. Piggly does not calculate interest, due dates, or minimum payments.
- Paying a debt in full unlocks Debt Slayer.

Rewards gallery

Badges: First Feed, 7-Day Streak, No Spend, Goal Crusher, Level 7, 1K Saved, and Debt Slayer. Locked badges show what to do next.

Money tools

- No-spend weekend: mark each no-spend day. Finishing all days earns the No Spend badge and 200 XP.
- 50/30/20 splitter: enter monthly income to see suggested needs, wants, and savings amounts.

Pro, syncing, and support

Create an account

- Choose Sign in, then Create an account. Confirm your email before signing in.
- Forgot your password? Choose Forgot password? on the sign-in page.

Sync across devices

When you sign in, Piggly saves your budget, purchases, goals, debts, XP, and badges to your account so they can appear on your other devices. Piggly also keeps a copy in the current browser. Guests use that browser copy only; clearing site data can erase it. Give signed-in changes time to save while online before switching devices. This is one account’s workspace, not separate parent and child profiles.

Upgrade, switch, or cancel

- Open 06 · Pro and choose monthly or yearly. Payments are securely handled by Paddle.
- Pro members can switch plans in the app. The change happens immediately, with the price difference adjusted.
- Choose Manage subscription to update payment details or cancel. After canceling, Pro stays active until the paid period ends.

Help

Email andreajamette@gmail.com. Refund requests can be made within 30 days of the order date. Terms, Refunds, and Privacy links are at the bottom of the app.
